

# *Father God,*

We thank You for Your light. Darkness threatens to surround us every day but, the light of Your love envelopes each of us as we navigate through challenging times, tough decisions, or difficult relationships. We thank You God, for the way that Your love grows and manifests itself in us in so many other attributes. Kindness, patience, forgiveness, compassion, strength, and courage, rooted in love, all flourish and spread to blanket those around us. We praise You Father and thank You, that Your divine love will cast light onto our darkest path, showing and guiding us safely as we go.

All these things we pray, in Jesus' Name,

# *Amen*
